ACADEMIC ACTIVITIES

Editor and panel member of.Cataract and Refractive Surgery Today:

CRTS is a monthly journal that focuses on the latest news and cutting edge technology in refractive surgery and presents the most clinically relevant material to the inquisitive surgeon and provides critical peer-review sections based on recent clinical studies.

Founder and Associate Editor of eyeweb.org.

"<http://www.eyeweb.org>" is a non-profit web site dedicated to ophthalmic knowledge. It targets ophthalmologists, primary care physicians, residents, medical students and patients through special sections like case presentations, patient education, journal watch,on-line atlas, PDA (Palm Pilot) formatted-programs and special links to other useful websites.... It has been very highly ranked by major web directories. A search on yahoo will most likely list the website in the top 10 entries. All photos and case presentations relate to patients diagnosed and treated by the authors at the American University of Beirut Medical Center.

Founder and Associate Editor of eyesoftware.net.

www.eyesoftware.net is another website that offers ophthalmologists and optometrists useful softwares designed for Palm OS and pocket PC handhelds. Examples of available software are the IOL calculator, Strabismus Calculator, Laser Companion?.. More softwares are under construction On-line publications on the website: www.eyeweb.org

Online Lectures

Intraocular Anatomy, clinically oriented, Optic Nerve Pathologies, Red Eye...

Online case presentations:

Bietti's Corneoretinal Dystrophy (case # 6)

Pseudotumor Cerebri (case# 7)

Postramatic Hypotony /ciliary shut- down (case # 8)

Dominant Drusen (case # 9)

Berlin's Edema =Commotio Retinae (case #10)
